

2023

# UTAH ONE HEALTH SYMPOSIUM

## Urbanization in Utah

### Health Impacts for People, Animals, and the Environment

**SAVE THE DATE!**

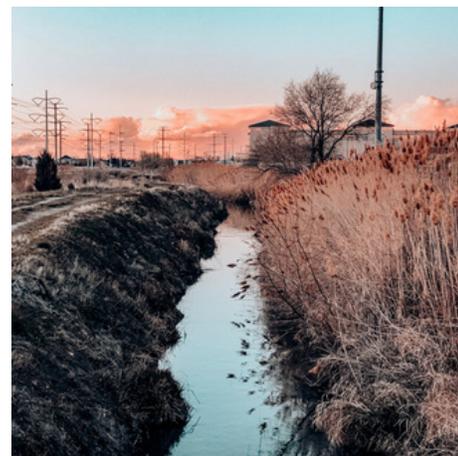

November 3, 2023

### Learn About:

- Urban-wildlife interfaces
- Zoonotic diseases
- Land use and insect vectors
- Preserving agricultural land
- Human impact on wildlife
- Rabies update
- And more!

This year, our focus is to explore the dynamic changes at urban-wildlife interfaces. We'll look at human influence and land-use change as they affect **risk of emerging diseases**. We will consider humans' connection to the land, and some of the factors that drive urbanization.

**CE pending for  
veterinarians  
and animal control officers**

**Davis Conference Center - Layton, Utah**
